

## RFX - RFXTe

### Coaxial Antennas

**50 ohm**  
**Indoor / outdoor**

50 ohm coaxial cable with corrugated slotted copper tube screen for indoor / outdoor antennas. RFX cables are the best choice for multi- and broadband systems. RFXTe cables are ideal when certain selected frequencies are required. The coaxial antennas provide a reliable way to build indoor coverage network in buildings and in tunnels. The cables are halogen free and non corrosive. Available in standard polyethylene jacket and in fire retardant, low smoke emission jacket in black (BHF) or grey (GHF).

### CONSTRUCTION

Rev.1.

<b>Inner conductor</b>		Copper tube or copper-clad aluminium wire
<b>Insulation</b>		Cellular polyethylene
<b>Outer conductor</b>		Corrugated slotted copper tube
<b>Outer sheath</b>		Polyethylene or halogen free fire retardant thermoplastic
<b>Marking</b>		Printed on outer sheath
<b>Colour</b>		Black or grey
<b>Mode of packing</b>		Drum
